**1 Name**

This is the Statement of Principles concerning *external bruise (Balance of Probabilities)* (No. 6 of 2016).

**2 Commencement**

This instrument commences on 25 January 2016.

**3 Authority**

This instrument is made under subsection 196B(3) of the *Veterans' Entitlements Act 1986*.

**4 Revocation**

The Statement of Principles concerning external bruise No. 110 of 2007 made under subsection 196B(3) of the VEA is revoked.

**5 Application**

This instrument applies to a claim to which section 120B of the VEA or section 339 of the *Military Rehabilitation and Compensation Act 2004* applies.

**6 Definitions**

The terms defined in the Schedule 1 - Dictionary have the meaning given when used in this instrument.

**7 Kind of injury, disease or death to which this Statement of Principles relates**

- (1) This Statement of Principles is about external bruise and death from external bruise.

*Meaning of external bruise*

- (2) For the purposes of this Statement of Principles, external bruise means a haemorrhage or haematoma in an external part of the body, but does not include an injury to an internal organ. External bruise is also known as external contusion.

*Death from external bruise*

- (3) For the purposes of this Statement of Principles, external bruise, in relation to a person, includes death from a terminal event or condition that was contributed to by the person's external bruise.

Note: *terminal event* is defined in the Schedule 1 – Dictionary.

## **8 Basis for determining the factors**

On the sound medical-scientific evidence available, the Repatriation Medical Authority is of the view that it is more probable than not that external bruise and death from external bruise can be related to relevant service rendered by veterans or members of the Forces under the VEA, or members under the MRCA.

Note: *relevant service* is defined in the Schedule 1 – Dictionary.

## **9 Factors that must exist**

At least one of the following factors must exist before it can be said that, on the balance of probabilities, external bruise or death from external bruise is connected with the circumstances of a person's relevant service:

- (1) having trauma involving the affected site within the 24 hours before the clinical onset of external bruise;
- (2) inability to obtain appropriate clinical management for external bruise.

## **10 Relationship to service**

- (1) The existence in a person of any factor referred to in section 9, must be related to the relevant service rendered by the person.
- (2) The factor set out in subsection 9(2) applies only to material contribution to, or aggravation of, external bruise where the person's external bruise was suffered or contracted before or during (but did not arise out of) the person's relevant service.

## **11 Factors referring to an injury or disease covered by another Statement of Principles**

In this Statement of Principles:

- (1) if a factor referred to in section 9 applies in relation to a person; and
- (2) that factor refers to an injury or disease in respect of which a Statement of Principles has been determined under subsection 196B(3) of the VEA;

then the factors in that Statement of Principles apply in accordance with the terms of that Statement of Principles as in force from time to time.

# Schedule 1 - Dictionary

Note: See Section 6

## 1 Definitions

In this instrument:

*external bruise*—see subsection 7(2).

*MRCA* means the *Military Rehabilitation and Compensation Act 2004*.

*relevant service* means:

- (a) eligible war service (other than operational service) under the VEA;
- (b) defence service (other than hazardous service and British nuclear test defence service) under the VEA; or
- (c) peacetime service under the MRCA.

*terminal event* means the proximate or ultimate cause of death and includes the following:

- (a) pneumonia;
- (b) respiratory failure;
- (c) cardiac arrest;
- (d) circulatory failure; or
- (e) cessation of brain function.

*VEA* means the *Veterans' Entitlements Act 1986*.
